SUMMARY

Web Designer with 2.5+ years of experience in crafting responsive, user-focused websites. Skilled in UI/UX and front-end development, I create visually appealing and intuitive digital experiences that align with brand goals.

EDUCATION

- **Front-End Development Certification**
Red And White Multimedia Education
(2022)
- **Bachelor's Degree in Accounting**
Veer Narmad South Gujarat University, Surat
(2017-2022)

PROFESSIONAL EXPERIENCE

Web Designer | Netizens Technology

Feb 2024 – Present

- Designed and developed clean, modern, and responsive websites focused on user experience and brand identity.
- Strengthened expertise in UI/UX design and front-end development, balancing visual appeal with functionality.
- Collaborated with teams to build intuitive digital experiences that enhance user engagement.

Web Designer | Gravity Infotech

Jan 2023 – Feb 2024

- Created responsive websites tailored for the financial sector, aligning design solutions with business needs.
- Utilized technologies like Bootstrap, CSS, and JavaScript to build user-friendly, high-performing front-ends.
- Improved website performance and design strategy, leading to a 20%–30% increase in conversion rates.
- Developed multilingual websites with smooth left-to-right (LTR) and right-to-left (RTL) language support.

SKILLS

- HTML5
- CSS/SASS
- BOOTSTRAP 5
- JAVA SCRIPT
- Figma
- React Js
- Github

PROJECTS

Stembotix – Education Platform

- Developed and implemented responsive user interfaces using React.js, focusing on performance, scalability, and seamless user experience.
- Collaborated closely with UI/UX designers to translate Figma designs into clean, reusable components.
- Integrated dynamic features and ensured cross-browser compatibility for smooth functionality across platforms
